

MAGEN – Advanced Protective Packaging for Defense Industries

Developed by Teamnet

TEAMNET IS A LEADING PROVIDER OF ADVANCED PACKAGING SOLUTIONS FOR DEFENSE, MILITARY, AND TACTICAL EQUIPMENT. WITH DEEP EXPERTISE IN RUGGED ENVIRONMENTS, TEAMNET DELIVERS SYSTEMS THAT INTEGRATE INNOVATION, DESIGN FLEXIBILITY, AND OPERATIONAL PRECISION.

MAGEN IS A NEXT-GENERATION PACKAGING SERIES DESIGNED TO MEET THE EVOLVING NEEDS OF MILITARY AND HOMELAND SECURITY FORCES.

FIELD-PROVEN PROTECTION FOR TACTICAL AND LOGISTICAL DEMANDS

MAGEN provides reliable protection across a wide range of defense applications:

- **Harsh Field Conditions** – IP55-rated protection from dust and moisture; ideal for desert and remote deployment.
- **Air Force & Aerospace** – Secure packaging for high-risk airborne components.
- **Homeland Security** – Fast-deployable systems for dynamic missions and emergency response.
- **Naval & Marine Use** – Resistant to humidity and saltwater for onboard and coastal operations.
- **Military Storage & Logistics** – Custom-configured for secure transport across land, sea, and air.

SMART STRUCTURAL DESIGN

Built from advanced polymers, MAGEN packaging systems offer:

- **Modular, Lightweight Design** – Flexible, tooling-free production.
- **Durability in the Field** – Stable under pressure and rough conditions.
- **Environmental Resistance** – Withstands UV, moisture, and contaminants.
- **Mission Adaptability** – Easily configured for specific needs.
- **Integrated Security** – Sealed, insulated, and operator-friendly.
- **Reliable Supply** – Rapid production and delivery for critical demands.

MAGEN PLASTIC CASE

Missiles and Bombs

Missiles & Bombs

Specialized packaging for missiles, rockets, guided bombs, and aerial munitions.

- Reinforced protection for sensitive systems
- Shields against shocks, moisture, dust, and harsh environments
- Suitable for extreme field and high-humidity conditions
- Customizable to weapon size with secure internal compartments

Drones

Protective solution for drones and sensitive electronics.

- High protection and easy handling
- Resistant to shocks, moisture, and dust
- Fits diverse operational needs
- Custom-configurable for drone size and gear

Collapsible Military Smart Logistics

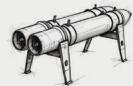

Field-ready solution for gear transport and storage.

- Quick-folding design saves space
- Durable for harsh use and heavy loads
- Reduces logistics costs across missions
- Adaptable to unit-specific needs

General Ammunition

Certified box for ammunition and hazardous materials.

- UN-certified for military-grade transport
- Advanced locking for safety
- Full protection from moisture and dust
- Wood- and metal-free for long-term field use
